Now is the time to reverse your car of life and travel back in time. Reunite with the teens of the class of 1961 and talk of those silver years of yesterday. We have been adults for TWENTY FIVE years, it's time to be kids again.

In addition to the Saturday night main event, we are planning a family involved weekend, with activities for Saturday afternoon that include golf for \$25 per person including cart, tennis for \$2 per person per hour, and swimming for \$1.50 per person all at the country club and the Sunday family picnic.

Please return the enclosed sheet with all items checked that are of interest to you and your family as well as updating your status for our directory.

Don't be a fool, respond by April 1st, 1986 ! ! ! ! !

Hope to see you July 26th and 27th,

Mary Lou Smith DeHart

Occupation: Surgical Tech

Children: Julie (22), Susan (21), Steve (19)

Still working in surgery. Just moved into a smaller home with my son Steve, who is a freshman at the Jr. College locally. My daughter Susan is a Jr. at Cal. State majoring in accounting. My oldest daughter Julie is out on her own and working. I'm really enjoying doing and seeing all those things I didn't do before in California and there is so much. I went to Europe with my mom and we had a ball!! Life is really quite good for me. I'm anxious to see everyone and am excited about my kids coming home with me.

From 1978 to 1985, I was a professor at the University of Virginia in Charlottesville, VA. I was recently appointed a professor at Memphis State University, where I primarily conduct research, advise faculty on research and statistical methods. During the past few years, I've been a consultant to IBM, the FBI, and the Department of Defense.

I have been developing computer programs for the teaching of statistical theory and application. These are being used at Ohio State, Penn State, University of Virginia, University of Alabama, and Memphis State and hopefully will be published in the near future. I also developed programs to teach quality control statistical methods for IBM.

During my spare time I am an amateur Mark Twain scholar and collector of first editions and a collector of antiques, especially early kerosene lamps.

Hi to our "61" Classmates,

We're in the process of re-locating after 12 years in Malvern, Pa. We are building a home in St. Charles, Illinois, west of Chicago. Our address as of November 1986 (hopefully) will be 315 Persimmon Drive, St. Charles, IL 60174. We'll be moving into temporary housing in August so Robb can start school in his new Jr. High in St. Charles. It's such a hectic time right now that our timetable for leaving Malvern isn't set as of yet. We certainly want to be with all of you for a good visit and to catch up on news of your families. I do hope we can make it, but it may be a last minute decision depending on how we can coordinate timing of the move and reunion.

Tom's been transferred to Sears Headquarters in Chicago and will fly out of Midway Airport where Sears keeps their fleet of airplanes. I will no longer teach, at least for a while, and will take the time to get orientated to the area plus get the house in order, etc. Robb will be a 6th grader this fall and is looking forward to good soccer programs in the St. Charles area. He's very active and involved in soccer out here and wants to continue there.

We do hope we can be in Troy July 26-27th and enjoy our 25th! We haven't missed one yet, and I hope we don't have to now! All our best to the reunion committee for your work in organizing and planning such a wonderful weekend.

Hello to all our "61" classmates - with warmest regards!

In 1983 my family "dropped out" of the New York City corporate rat race and moved to a small town on the coast of Maine. We live in a renovated old seacaptain's home which was built in 1830, and both my husband and I work in Portland, 15 miles away. The family enjoys the usual outdoor activities of "Mainiacs" - sailing, canoeing, cross-country and downhill skiing, as well as the variety of theatrical and cultural offerings which were surprised to find "way up here" in Maine. Like many women today, I struggle to find a comfortable balance between career, volunteer activities (I am on the board of directors and president-elect of a 250 member volunteer organization), and my family - the most important part of my life. Who would have guessed 25 years ago that life would become so complicated and exhausting!

After many years of being in the travel business, I know I have finally found the right company - American Express Travel Agency in La Jolla. I specialize in groups and cruises, and love group cruises especially with Princess Cruises and the ROYAL PRINCESS. I set up groups and programs onboard ships such as the Old Globe Theatre and have been in touch with Beverly Sills, even having had drinks in her home in New York City. I am presently working with Betty Leslie-Melville with the African Fund for Endangered Wildlife for a cruise benefit on the ROYAL PRINCESS and will be doing some safaris in Kenya next year.

There is never a dull moment. I have been very involved with the San Diego Symphony in the past and have been on the Board - very interesting! I have been most fortunate in meeting many famous artists in San Diego such as Benny Goodman, Aaron Copeland, Isaac Stern, Toberta Peters and Lionel Hampton and Chet Atkins and have been chauffeur to many of them!

When I do stay home, I love messing around in my small garden and it is quite lovely. I rent my guest room as a Bed & Breakfast and have met many very interesting people. Summer in San Diego is really nice with the Summer Pops on the Bay, the old Globe Theatre out of doors in the park and many other activities which I enjoy.

I will be once again on the Royal Princess to Alaska August 4th departing with a group of clients. Yes, I tell my boss that it really is work! Believe me, it is!

I am looking forward to seeing everyone this July in Troy.

I helped my husband from the basement to the roof putting up siding, sheetrock, insulation, you name it. It was hard work but we are now enjoying the fruits of our labors and at the same time saved a bundle of money. We have a few cows and milk goats on our small farm mainly to help keep the weeds down and for pets. Since my husband teaches (Data Processing) at a nearby college, I get to attend tuition free. I'm working for an Administrative Management degree at present. But that may change next year. I'm just enjoying being back in school. Our youngest daughter will be attending the same college this fall. I wonder how she'll handle it with her mother and father both there?

Twenty-five years -- unbelievable!

Nevertheless, each passing year gets better. Since our last get-together, George and I were married (September, 1982); and we enjoy canoeing and gourmet cooking and are learning (or attempting to learn) golf. In addition, he's a bagpiper and will enter state competition this September; I'm into gardening and active in professional organizations (and am picking up the flute again, from THS days). When not managing three departments at NCR's world headquarters and traveling, I'm squeezing in classes at the University of Dayton to complete an MBA. We're both active in our church, with George on a pastoral search committee and me as an elder.

When we can capture long weekends, we enjoy Scottish highland games and gatherings around the country. And late last summer, we spent three fantastic weeks in Scotland and England, for the Edinburgh Arts Festival, world piping competitions, visits with friends, and touring of spots where George lived while in high school.

Stark raving mad architect lives in elevator machine room of rapidly deteriorating department store. Living on table scraps and tap water. By day this architect mostly draws checks, occasionally water and infrequently draws and quarters pigeons, rats or rabid racoons to provide food for the staff.

In spare time he is an avid television critic and voyeer. Those programs most often reviewed are: As the World Turns, All of my Children and the 700 Club. Tammy Baker is the most favored television personality.

He has often been spotted at J C Penney's and E J Komets while shopping with Imelda Marcos. This international personality vacations frequently in El Paso, Texas, Cherry Hill, New Jersey and Lodz, Poland - those international pleasure spas known only to the chosen elite.

2724 Huckleberry Dr.
Great Falls, Montana 59405

Children: Scott (19) at Princeton University and a pole vaulter on their track team, David (17) junior in high school, Peter (14) 8th grade - he just won the Cook Scholarship - 4 years at St. Paul's school in Concord, N.H. and a 4 year college scholarship at the college of his choice!

As for me - I'm still a parttime student, getting close to receiving my degree in social studies. We have a darkroom in our home and I do some legal photography and photography for groups. But my favorite hobby is still tennis - I play a lot.

Summer of 1984 Don & I & our kids took a 6 week trip - a marathon driving trip back and forth across the country and 3 weeks in Europe. But a highlight of the trip was driving through TROY and showing my family my old haunts. Having been away so long (close to 25 years) I couldn't get over what a beautiful little town Troy is. We were all impressed.

In Great Falls I see my good friend Mary Lois Dudley Doerk often and we reminisce about our "youth" in Troy - plus she has kept me in touch with news of classmates.

Any old friend who plan a trip to Montana - you have a standing invitation to visit us!

Have a great reunion -----

Now that I've reached one of my high school goals (becoming a nurse 23 years later), I'm busy setting new ones. Hopefully, they won't take as long to achieve!! My sights are set on traveling - Canada, S.A. and U.S. primarily. First though - the kids have to finish their schooling and the house needs major repairs!! Anyone know HOW to win a BIG lottery or where to find a gold mine??!!

I haven't forgotten about the reunion in July. However, we have a scheduling conflict. Wanda's sister is getting married on the 26th of July, so we're committed for most of the day. I'll make every effort to see you all sometime during the evening of the 26th at the TCC.

Sounds like a great time.
